PPE Inspection form

User:	(Company name:	
Model:	(Company address:	
Serial No: (batch number)	l	Unique ID: (your marking)	
Year of manufacture:	(Comments:	
Date of first use:	[Date of purchase:	

The inspection of this product should be done with the manufacturer technical notice

Historical Check:

The results of this PPE inspection are provided to you subject to the condition that the components to be inspected do not come into any of the categories listed below, any of which would require systematic rejection of the component, namely:

- Component has undergone modification or alteration outside the manufacturer's production units.
- Component has received forces from a fall of factor 1 or more.
- Component has been used in temperatures of less than -40 °C or greater than +80 °C.
- Component has exceeded it's lifetime.
- The product has been in contact with chemicals.

The inspector accepts no responsibility in the case of omission or inaccuracy in the information concerning the checking of the components history, which must be done by the client.

Visual check of safety components	С	G	TM	TR	R
Condition of the webbing (cuts, wear, burns, marks, chemical contamination, other damage)
